

Welcome to

We understand the emotions of hair loss, due to chemotherapy, alopecia areata or natural thinning and extend the most knowledgeable and experienced approach possible. We offer beautiful, realistic, top quality synthetic and human hair wigs as well as all of the products and education you will need to care for them.

In order to provide exceptional care to those in need of these services, we ask that you make a private session appointment by calling the number below. Our personal desire to help people is the basis of our business and we look forward to the opportunity to assist you as well!

LET US HELP YOU ANSWER SOME COMMONLY ASKED QUESTIONS:

1. WILL I BE ABLE TO FIND A WIG THAT LOOKS REAL?

Today, wigs are almost indistinguishable from a natural head of hair. Hand-tied fine hair or inside "hidden" wefting along the front gives a realistic hairline as well as monofilament scalps that look just as natural as your normal part. Today's synthetic fibers are much thinner than they used to be, and by working with high quality companies, we are able to provide you with a very realistic, beautiful, and stylish new hair style.

2. IS A WIG COMFORTABLE?

Years ago, wigs were made with caps which were definitely hot and sticky. Today with the invention of cap-less wigs, lengths of fibers or wefts are sewn to cotton or lace bands which shape to the head yet allow plenty of air to circulate. Most wigs weigh less than 2.5 ounces and are very easy to get used to.

3. WHAT IF MY WIG COMES OFF?

A wig that fits your head is essential to security. A perfect fit prevents slippage and that is why we take special care to custom fit your wig for you. After determining the shape and size of your head, we will order a wig that has velcro or hook adjustments that allow you to loosen or tighten the fit as you need. We have a lot of personal experience with wigs and can teach you how to ensure your wig stays perfectly in place.

4. WHAT STYLE OR COLOR SHOULD I CHOOSE?

During your private session, we take time in determining what style and color you like and what works best with your face shape and coloring. We can match just about any hair color if you choose to stay with your normal color, or maybe you'd like to be adventurous and experiment with a style or color you've always wanted. Either way, we pride ourselves in making you feel comfortable and look great!

5. DO I SIT IN PUBLIC WHEN I TRY ON A WIG?

We offer private fittings for our clients. We are experienced wig consultants, sensitive to your needs and will do everything we can to ensure that you will have the best experience possible.

6. ARE WIGS EXPENSIVE?

Wigs, like any piece of apparel, vary in price depending on the materials, craftsmanship, and quality. The average quality wig costs between \$150.00 and \$300.00, but can range anywhere from \$30.00 to \$3,000.00. With such a variety of companies to choose from, we are able to accommodate just about any budget. Most insurance companies allow you to claim your wig as well.

OF COURSE YOU MAY HAVE ADDITIONAL CONCERNS AND QUESTIONS AND WE HAVE THE ANSWERS. LET US HELP YOU MAKE THIS A POSITIVE EXPERIENCE. CALL FOR YOUR PERSONAL APPOINTMENT TODAY!

I was diagnosed with Alopecia Areata at the age of thirteen. By the time I was nineteen it was necessary for me to wear wigs and I have been doing so ever since. Over the years I have had numerous experiences with this process, mostly frustrating until I was able to find solutions that not only looked natural but evoked security and confidence. In 1997 I added wig and hair loss services to my spa business and since that time I have had the privilege of assisting thousands of women through their hair loss experience.

I feel that through my own challenges I have mastered the process of finding the perfect hair piece for my clients, often with the very first one I put on them. I have learned something from each of these women that have come into my life and having the opportunity to serve them has turned what some would consider very difficult into a wonderful blessing in my life. I believe that things happen to us for a reason and that is why this is my mission!
